TEPEZTATE-TOBALÁ ENSAMBLE

Master Mezcalero: Juan Hernández Méndez

NOM: NOM-0496X

Agave Varietal: Tepeztate, Tobalá

Scientific Name: Agave marmorata; Agave potatorum

Town / Municipality: Santiago Matatlán

State: Oaxaca

Fermentation: Natural, Open-Vat Fermentation in Wood

Still Type: Copper Alembic

Dates of Distillation: December 2017

Number of Liters in Distillation: 585

ABV: 44%

Tasting Notes: A true blend of 50% Tepeztate and 50% Tobalá, two agaves that are dramatically different in personality. This Tepeztate-Tobalá Ensamble is Tepeztate forward, meaning you will likely taste the green, vegetal, and drier notes of the Tepeztate first, before it expands into the Tobalá's sweeter fruit notes and rounder body.
