Backstory

A legacy of the era when Mezcal production was illegal in Oaxaca, this batch of Madrecuishe crafted by Silverio García Luis – a 2021 Ancestral Limited Release – rescues a García family tradition that had been forgotten for almost fifty years.

Distilled in clay pots. Distillation tube made from **quiote** (flowering stalk of agave plants) instead of metal. In the 1960's and 1970's, Don Lencho – Silverio's father – would use a hollowed out quiote instead of copper tube, to evade the military that would come and seize his distillation equipment by force. Now you too can partake in this unique mezcal tradition from the García family in Rancho Blanco Güilá, Oaxaca, available for the first time in the United States in partnership with Erstwhile Mezcal.
